

**Trade For Change**

## Welcome to Trade for Change

We are an experienced global trading company, committed to making a positive impact in the world around us. T4C allocates 10% of all revenues and all trading gains to local charities and causes chosen by our community through a Decentralized Autonomous Organization or DAO.

## What Is A DAO

A DAO is a type of organization that gives the decision-making control to members. In T4C, our global membership selects causes to support and the DAO votes on which charities or causes receive funds.

## Our Mission:

Trade For Change is a purpose driven high-tech trading platform.

Our objective is 3-fold; help you improve your own financial wellbeing, help those that are important to you and help causes that make a difference in your community and the world around you.

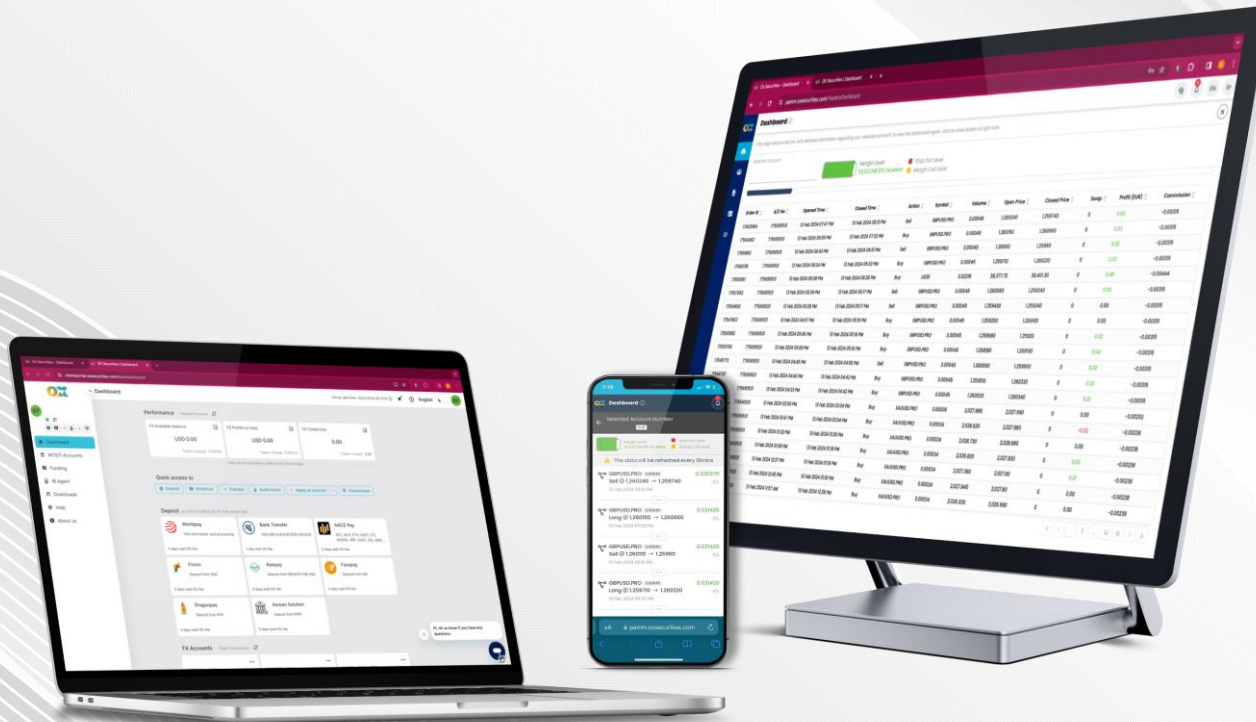

## Experienced Trading Teams

We offer a blend of expert manual traders and smart-bot trading technology. The T4C PAMM is managed 24/7 by an in-house expert trading team.

Minimum amount to participate is 100 EUR.

T4C does not currently accept citizens of U.S.A. and Canada. We do not provide licensed and or regulated financial advice of any kind. Trading is a high-risk activity, and you may lose all your funds. Trading is not suitable for everyone and may result in you losing your capital. Please be sure to only trade with money you can afford to lose.
